LEGNO E ARCHITETTURA

TREEHOUSE _ BROISSIN ARCHITECTS

LEGNO E':

STRUTTURA

LEGNO E':

An aerial photograph of a large, flat roof covered in light-colored wooden shingles. The shingles are arranged in a regular, overlapping pattern. The roof extends to the edges of the frame, where it meets a dense forest of green trees. In the background, some buildings with red roofs are visible on a hillside. The word "COPERTURA" is written in a large, semi-transparent, grey font across the center of the roof.

COPERTURA
